Instructions Manual (English)

SETTING THE TIME *First remove watch from silicon band

1. Pull the crown out to the 1st position.
2. Turn the crown to set hour and minute hands.
3. When the crown is pushed back to the normal position, second hand begins to run.

CHANGING THE BATTERY

1. It is recommended to take your watch to a repair shop to change the battery.
2. When you want to change the battery by yourself, take out plastic watch case from the silicon band. Carefully unscrew the screws of the watch case and change the battery.
3. Maxell LR626 is the model of battery required.
4. Assemble the watch in reverse order.

Watch Care and Precautions

This watch contains precision components. To ensure the best life for your Breo®, please follow the simple guidelines for watch care:

1. Avoid leaving your watch in any extremes for long periods of time; direct sunlight, extremely warm or cold environments:
 - Extreme heat will cause malfunctions and shorten the battery life.
 - Extreme cold will cause the watch to gain or lose time.

2. Avoid extreme shock or impact. Your watch is designed to withstand impact under normal use.
3. Do not operate any of the function buttons when the watch is submerged in water. Should water or condensation appear in the watch face, have the watch checked immediately. Water can corrode parts inside the case.
4. Do not submerge your watch in the hot water or shower.
5. Keep your watch clean. Clean your watch with a soft cloth and water only.

Worldwide Warranty

Thanks for choosing a breo® watch. We warrant this item for 12 months Worldwide from the date of purchase for all constructing defects. We are not responsible for any damage caused by inappropriate use. From the warranty are excluded: Glass, strap & battery (Maxell LR626).
